

“Negroes nurture a persistent myth that the Jews of America attained social mobility and status solely because they had money. It is unwise to ignore the error for many reasons. In a negative sense it encourages anti-Semitism and overestimates money as a value. In a positive sense the full truth reveals a useful lesson. Jews progressed because they possessed a tradition of education combined with social and political action.”

*Where Do We Go From Here: Chaos or Community?* (1967) [New York: Harper]
